

PARTNERS BETTER BALL Stroke play. Played as a two-person team with the better ball on each hole being the team score. The handicaps of the members of a side should not differ by more than eight (8) strokes. Where the difference of the members of a team course handicap exceeds 8 strokes, each members handicap will be reduced to an additional 10%. Each player is allowed 95% of her handicap. Strokes are dotted where they fall for each partner. Members of the clubs at which the tournament is played have the option of playing at their own club and must so indicate on their entry.
